

UNDERSTANDING OF INSURANCE

As a courtesy to our clients, we will file all claims to their insurance provider for services rendered through our office. Our staff members do their utmost to verify coverage eligibility and the **estimated** amount that each insurance will not cover, including copayments and deductibles. It is **not a guarantee of payment** by the insurance provider, rather it is only an estimate.

The insurance provider and the specific plan held by the patient will determine the true coverage, once the claim is received and processed for payment. **We encourage all patients to call their insurance provider for any questions regarding coverage and for plan details.**

Insurance is a contract between **patient and carrier**. Therefore, it is the responsibility of the patient to know the coverage, exclusions, limitations, and frequency clauses in their plan.

By signing below, you are verifying that you have read and fully understand that you are solely responsible for any remaining balance your insurance provider may not cover beyond your initial **estimate** given to you by our staff.
